- D**
- Die Reinigung muss bedarfsgerecht ausgeführt werden (öffentlich-gewerblicher Bereich bzw. Privathaushalte).
 - Die Wahl des Reinigungsmittels sollte berücksichtigen, ob es sich um eine Grund- oder Unterhaltsreinigung handelt.
 - Das Reinigungsmittel sollte keine leichtflüchtigen Säuren enthalten. Ebenso sind Ameisen- oder Essigsäure nicht geeignet.
 - Scheuermittel, Padschwämme und Mikrofasertücher sollten nicht verwendet werden.
 - Reinigungsmittel niemals mischen oder überdosiert verwenden.
 - Einwirkzeit dem Grad der Verschmutzung anpassen.
 - Sprühreinigung vermeiden.
 - Armaturen und Accessoires ausreichend mit Wasser spülen.
 - Auch Rückstände von Körperpflegemitteln wie Flüssigseife oder Shampoo können Schäden verursachen.

- GB**
- Cleaning as required (public and commercial properties or private households).
 - The choice of cleaning agent shall take into account whether the cleaning task to be performed is to be considered basic or maintenance cleaning.
 - The cleaning agent should not contain volatile acids. They also must not contain formic or acetic acid.
 - Abrasive agents, abrasive pads and microfibre cloths also should not be used.
 - Never mix or overdose cleaning agents.
 - Exposure according to degree of soiling.
 - Do not spray-clean.
 - Rinse fittings and accessories with sufficient amounts of water.
 - Residues from body care products such as liquid soap or shampoo may cause damage, too.
