

CREA 170X83 BATHTUB FREESTANDING BACK-TO-WALL

[COLLECTION CREA, CREA BATHTUBS](#)

PRODUCT CODE: S301-301

Product description

Back-to-wall CREA freestanding bathtub is a perfect solution for those who want to combine the monolithic beauty of a freestanding bathtub with the functional aspect in the arrangement of bathroom space. The freestanding back-to-wall bathtub allows the use of both wall-mounted fittings as well as bath-mounted fitting: there is a possibility of drilling holes in the bathtub edge. The product is also equipped with a convenient space for bathing utensils in the form of a comfortable shelf, adjacent to the wall. The product is made of high-quality acrylic - a material that dampens the sound of hitting water and makes the surface of the bathtub warm and pleasant to touch. The pleasant bath temperature is maintained longer. In addition to its solid structure, the freestanding acrylic bathtub is distinguished by its weight, which is far lower than conglomerate products. The set includes a chrome click-clack siphon and a frame with adjustable legs. Separately, there are siphons with a click-clack plug in black and gold.

Technical data
